In-Class Activity

Meet Team Mates

Get HCDE Module working

Become familiar with some of HCDE module

Meet up

- Meet with your team mates!

Install some packages

- Installing Python packages
  - pymysql
  - requests
  - oauthlib
  - requests_oauthlib

- Some additional ones you will eventually need
  - sqlalchemy
  - networkx
  - nltk

Download & Install

- Download HCDE module
  - Unzip, copy/move

Authenticate Twitter App

- Use the Login.py command to authenticate the HCDE530Test01 Twitter Application

- Now you can try the other commands:
  - Search.py
  - Trends.py
  - TwitterLimits.py
